

## CSC 260L.001 and 002: Object Oriented Programming Lab

### Schedule of Topics, Readings and Assignments

All readings are from Liang. The schedule of readings should match your CSC 260 lecture section so that you are not required to do additional reading for the lab.

Week	Topics	Readings	Section 001 lab due date (all on Mondays)	Section 002 lab due date (all on Wednesdays)
1	Introduction to simple Java programs and the Eclipse IDE	1.7-1.10, 1.12, 2.2, 2.4-2.5	Jan 18*	Jan 20
2	Assignment statements	2.5-2.11	Jan 25	Jan 27
3	Input and output	1.9, 2.3, 2.15, 2.16	Feb 1	Feb 3
4	Decision making using conditional and selection statements	3.1-3.6, 3.9	Feb 8	Feb 10
5	Logic	3.10-3.12, 4.4	Feb 15	Feb 17
6	Loops	5.2-5.6	Feb 22	Feb 24
7	Methods	6.1-6.5	Feb 29	Mar 2
8	Arrays	7.1-7.2	Mar 7*	Mar 9*
9	Arrays	7.1-7.2	Mar 21	Mar 23
10	Using the debugger	N/A	Mar 28	Mar 30
11	Classes	9.1-9.5, 9.8-9.10, 9.14	Apr 4	Apr 6
12	More on classes	9.1-9.5, 9.8-9.10, 9.14	Apr 11	Apr 13
13	Multiple arrays, multidimensional arrays and file input	8.1-8.4, 12.11	Apr 18	Apr 20
14	Inheritance and Polymorphism	11.1-11.5	Apr 25	Apr 27
15	Wrap-up session (if necessary)	N/A		

Due dates are listed here for each assignment based on your section. All assignments are due by email no later than 10 am to [foxr@nku.edu](mailto:foxr@nku.edu). If the assignment is not received by then, it will be counted as late.

Dates indicated with an \* are holidays or days when no classes are held. You are still expected to submit your assignment by that date. If you know you will not be able to submit it on that date, submit it earlier.

NOTE: there are no exams in this class so there is no final exam and we will not meet during the final exam session.
